# TIME IS MONEY, AND WE CUT YOUR LOSSES WITH SOLUTIONS THAT GUARANTEE MAXIMUM EFFICIENCY FOR YOUR FACTORY

Investment in your factory often fails to reach its full potential. Downtime, poor performance and quality defects are the main culprits, eating up time and money while undermining results.

To reverse this picture, you need solutions that slash wasted time and secure peak operational efficiency. That's where MGPRO® excels: far more than a monitoring tool, it is your ideal partner for identifying, analysing and acting—cutting waste and optimising production.

Read on to explore our ecosystem and see how OEE+, integrated with MGPRO®, can revolutionise your plant, driving productivity to internationally recognised levels of efficiency.

This reality is within reach. Our system fits factories of every sector and size, delivering the scalability and flexibility you need to enter the Industry 4.0 era.

The transformation starts now.  
Shall we move forward together?

## THE PERFECT COMBINATION FOR TOTAL EFFICIENCY

Imagine a suite of solutions that not only optimises your production but also transforms the way your company manages processes and people.

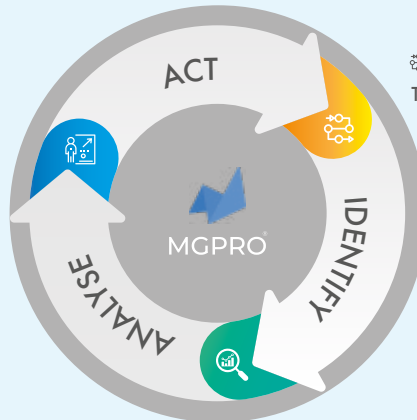

OEE+ and MGPRO® are the power duo that delivers total control, realtime monitoring and continuous improvement.

**OEE+**

Our consultancy goes far beyond basic process analysis. With OEE+, we work hand in hand with your team to develop, implement and embed improvement programmes founded on methodologies widely recognised for their effectiveness—always focused on total efficiency and ongoing improvement.

**OEE+**

 **PEOPLE**  
The most important pillar; they decide what must be done, based on the information they receive.

 **PROCESS**

The focal point where value is actually created: an interconnected network of resources and infrastructure.

 **INFORMATION**

The technological tools that gather and process data and ensure the smooth flow of knowledge across the organisation.

  
**MGPRO®**

With MGPRO®, your company gains total control over every stage of production. View data in real time, pinpoint losses swiftly and optimise results with cutting-edge technology.
